

Rtuwdk Medal

The Rtuwdk Medal is a highly-polished and engraved slab of ruby on a ribbon, for placing about the neck. It is the highest honor that [Edeptis IV](#) can bestow. The only known recipient is the legendary healer, [Doron](#). It was given to him, “For...willingness to risk illness and death on behalf of our people, and [his] wonderful success in developing new treatments for ever more diseases and injuries,” ([Trojan Horse](#))
