Some enemies just won't die. When another enhanced human shows up at the Agency, Alpha One discovers they aren't done with Slug's machinations: Mark Wright is there for Omega, and the NEXT generation of assassins will be GENETICALLY programmed to kill Echo! Thus begins a bizarre, inverted manhunt as the telepathically-brainwashed Wright chases Alpha One across—and off—the planet, using the pre-programmed mental link that Omega can't fully block, to follow her anywhere Echo can take her... Book 7 of the Division One series. Author: Stephanie Osborn
